**ENVIRONMENTAL AUDIT PROGRAM
DESIGN GUIDELINES FOR FEDERAL AGENCIES**

NOTICE

This document has been developed to assist in the development and implementation of environmental audit programs. This document is intended to outline the major considerations for creating and managing an audit program but does not prescribe in detail all factors and considerations required for this task.

The U.S. Environmental Protection Agency does not make any guarantee or assume any liability with respect to the use of any information or recommendations contained in this document. Federal facilities requiring additional auditing information or advice should consult a qualified professional.

In addition, the information and recommendations set forth herein are intended as guidance to government employees. It does not constitute rulemaking by the EPA, and may not be relied on to create a substantive or procedural right or benefit enforceable, at law or in equity, by any person. The government may take action at variance with this guidance and its internal procedures.

ACKNOWLEDGMENT

This guidance was prepared by the Federal Facilities Enforcement Office (FFEO), U.S. Environmental Protection Agency (EPA) for federal facilities to use as guidance in establishing and implementing environmental audit programs. Much of the work of creating the publication was performed under Contract No. 68-W4-0005.
